The 20th International Workshop on Languages and Compilers for Parallel Computing

Siebel Center for Computer Science
University of Illinois at Urbana-Champaign
Urbana, Illinois, October 11-13, 2007

http://polaris.cs.uiuc.edu/lcpc07

This workshop covers all aspects of languages, compiler techniques, run-time environments, and compiler-related performance evaluation for parallel and high-performance computing. Since 1988, the annual LCPC workshops have provided a forum for leading researchers and practitioners to present their latest work and to exchange ideas about future directions.

Important Dates

• Abstract submission: July 2, 2007
• Full paper submission: July 9, 2007
• Decision notification: August 24, 2007
• Camera-ready version: September 18, 2007
• Workshop date: October 11-13, 2007

The final proceedings will be published as a volume in the Springer Lecture Notes in Computer Science series. Please limit the paper to 15 pages in the Springer LNCS format.
